Deputy Assistant Director
Inspection and Security Office
General Counsel
Release of files

3 March 1952

1. As I mentioned on the telephone, I am very reluctant to concur in the release of these FBQ files without further study of the various legal and security ramifications. If it becomes important to turn these over to the Bureau, I suggest we confer with [REDACTED] of OPC, who was the Staff Officer in OSS responsible for this operation.

2. No objection to release of the OSS report on the Japanese Super Spy Organization. The Air Force's report, which is substantially the same, should not be released by us.

3. No objection to the release of the foreign nationality reports as discussed with you previously.
